Lorma Medical Center is accredited by PhilHealth
ISO 9001 : 2000 Certified

OUR MISSION IS TO PROVIDE THE BEST QUALITY IN PERSONALIZED HEALTH

A Comprehensive Medical Evaluation Designed to Fit the Demands of Business Owners and Busy Executives!

Health is a key factor for business leaders and key managers. For them, an investment in good health is more than a wise business decision. It's a competitive edge.

Combining Lorma's traditional diagnostic excellence with state-of-the-art preventive medicine, the Lifecheck™ Comprehensive Executive Health Program offers a streamlined and preventive examination. The program has been specifically designed to accommodate the needs and time constraints of the executive calendar. In just 1 to 2 days, your executives can complete a full battery of medical tests and evaluations.

Lifecheck™ includes these services:

- A comprehensive medical history and physical examination by specialists in internal medicine and preventive medicine
- A full range of preventive screening tests for early detection of cancer, heart disease and other serious medical problems
- A cardiovascular fitness evaluation, including a treadmill exercise test and an exercise prescription
- A lifestyle assessment to discuss nutrition, stress & weight management (through physical therapy and rehab), alcohol, tobacco, personal safety and other indicators of risk of disease
- A review and update of medications and immunizations, including those needed for international travel
- A full report of your test results at the conclusion of the examination and a written report sent to the executive's home.

Lifecheck™ is particularly programmed to screen for such illness as Renal, Cardio-Pulmonary diseases and Cancer.

Lifecheck™ includes a 48 hour stay in a LORMA Executive suite with a callisthenics program and a special dietary menu designed to revitalize and rejuvenate the recipient of the check-up.
